

OTS Group Announces Availability of GVR Parts with Expedited UK Delivery

- OTS Group to stock Gilbarco Veeder-Root (GVR) SSE parts in the UK.
- Reduced delivery times: essential components within 48 hours, most items within a week.
- Broad inventory includes fuel dispensing pumps, TLS Series ATGs, and Red Jacket STPs.
- Expert installation and maintenance by OTS Group's trained teams.
- Contact sales@otsgroup.co.uk for more details and swift service station equipment supply.

Moreton-in-Marsh, Gloucestershire (22nd April 2024) – In a move that promises to significantly expedite the availability of service station equipment (SSE) across the UK, OTS Group has committed to warehousing large quantities of GVR stock, enabling commercial service stations to receive, and in some cases install, replacement equipment within as little as 48 hours (but typically same week as order). This move is set to alleviate the industry-wide issue of extended lead times, providing rapid access to critical GVR parts and equipment.

Comprehensive GVR Equipment Range

OTS Group's inventory encompasses a broad spectrum of GVR's state-of-the-art service station equipment, including:

- Fuel Dispensing Pumps: Combining precision with efficiency, these pumps are renowned for meeting rigorous quality standards.
- Automatic Tank Gauges: Essential for real-time fuel monitoring, these gauges facilitate environmental regulation compliance, including the advanced TLS series tank gauges such as the TLS-450PLUS Automatic Tank Gauge (ATG), and the TLS4 and TLS4B Automatic Tank Gauges.
- Red Jacket Submersible Turbine Pumps (STPs): These pumps are integral to ensuring the safe and efficient transfer of fuel.

Unprecedented Delivery Times for GVR Equipment

With the introduction of GVR equipment stocked by OTS in the UK, delivery lead times for many items will be reduced to 1-2 weeks. For simpler components that don't require specialised installation, dispatch can occur within 48 hours— a service delivery revolution for the fuel equipment industry.

Expertise in Installation and Maintenance

Beyond supply, OTS Group's service and installation teams are thoroughly trained to work with the entire range of GVR equipment, ensuring not only the swift provision of parts but also professional, knowledgeable installation and maintenance. This expertise guarantees the longevity and reliability of the service stations' fuelling systems, underpinning the operational excellence that OTS Group's clients have come to expect.

For further details on how OTS Group can support your service station with our new GVR stock, reach out to us at sales@otsgroup.co.uk.

The future of SSE supply is here, and with OTS Group, it's faster than ever.

ABOUT OTS GROUP

With over 50 years' experience in the fuel sector, OTS Group are recognised as leaders in the field. Renowned for their advanced fuel storage systems and turnkey solutions, OTS Group designs and delivers practical answers to complex fuel storage, re-fuelling, distribution, service and maintenance issues. From design & delivery of truck stops and fuel distribution depots, to the provision and servicing of dispensing equipment, to fuel quality and certification, OTS delivers the perfect solution to all your fuelling needs.

OTS Group / Strong ethics, technological approach, high quality products and services, invested in our people.
